(b) Generally, when the place of delivery is f.o.b. origin, the Government consignee at destination is also accountable for the supplies, and all claims or reports dealing with discrepancies shall be initiated at that point in accordance with the property accountability regulations of the agency concerned.

(c) If supplies are acquired on an f.o.b. destination basis, any claim arising from a discrepancy occurring in transit is a matter for settlement between the contractor and the carrier. However, the Government consignee shall (1) notify the carrier of the discrepancy by noting the exception on the carrier's delivery receipt and (2) furnish all available data to the CAO or appropriate agency office, which shall promptly transmit the data to the contractor.

42.1406 Report of shipment.

42.1406-1 Advance notice.

Military (and as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges.

42.1406-2 Contract clause.

The contracting officer shall insert the clause at 52.242-12, Report of Shipment (REPSHIP), in solicitations and contracts when advance notice of shipment is required for safety or security reasons, or where carload or truckload shipments will be made to DoD installations or, as required, to civilian agency facilities.

Subpart 42.15—Contractor Performance Information

SOURCE: 60 FR 16719, Mar. 31, 1995, unless otherwise noted.

42.1500 Scope of subpart.

This subpart provides policies and establishes responsibilities for recording and maintaining contractor performance information. It implements Office of Federal Procurement Policy Letter 92-5, Past Performance Information. This subpart does not apply to procedures used by agencies in determining fees under award or incentive fee contracts. However, the fee amount paid to contractors should be reflective of the contractor's performance and the past performance evaluation should closely parallel the fee determinations.

42.1501 General.

Past performance information is relevant information, for future source selection purposes, regarding a contractor's actions under previously awarded contracts. It includes, for example, the contractor's record of conforming to contract requirements and to standards of good workmanship; the contractor's record of forecasting and controlling costs; the contractor's adherence to contract schedules, including the administrative aspects of performance; the contractor's history of reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the contractor's business-like concern for the interest of the customer.
